

Theft-Proof Your Rig

SXS Nation — One-Page Security Checklist

The 5-Device Stack (Layered Deterrence)

☐ Hidden kill	Interrupt fuel-pump/ignition; conceal switch/relay; loom wiring.
☐ Trailer defense	Tight coupler lock + receiver pin lock + wheel boot (if outside).
☐ Cloud camera	Zones for people/vehicles; cover driveway approach and plate angles.
☐ Hardwired GPS	Unit with backup battery; hide high; add a second micro tracker elsewhere.
☐ Geofences + siren	Home/Storage/Travel zones; tilt/ignition/motion alerts; audible siren hidden.

Daily

- ☐ Keys removed; cover on; garage/barn locked; camera armed.
- ☐ Hitch locked + receiver locked + wheel boot (if outside).
- ☐ Geofences active; phone not on silent.
- ☐ Park tongue-to-wall; remove ball mount; lock safety chains together.

Monthly

- ☐ GPS test ping; subscription and backup battery OK.
- ☐ Night walk test: confirm alerts and plate readability.
- ☐ Inspect locks for wear/play; replace sloppy fits.
- ☐ Firmware/app updates for cameras and GPS applied.

Records (Store in Cloud Folder)

- ☐ Photos of VIN/serials (machine, trailer, major accessories).
- ☐ Receipts for upgrades; warranty docs.
- ☐ Policy page showing comprehensive + accessory limits; trailer coverage verified.
- ☐ Spare keys inventory check (all accounted for).

If Your SxS Is Stolen: The First 10 Minutes

- 1) Call police for a case number.
- 2) Live-share GPS location with dispatch.
- 3) Call your insurer (policy # + case # ready).
- 4) Run NICB VINCheck.
- 5) Share camera clips with neighbors/local groups (plate, time, direction).
- 6) Secure the scene; do not pursue.

Bonus: Storage Setup

- ☐ Nose-in parking; rear wheels chocked; cover secured.
- ☐ Second tracker hidden in a different location.
- ☐ Visible deterrence: camera/caution signage.

Tip: Take a photo of this checklist and keep it in your phone for quick reference.
